About

I'm a JavaScript Lover and the creator of Rasengan.js.

Transforming ideas into reality through code is my passion — I love building things that have impact and solve real-world problems. I'm always looking for new challenges and opportunities to learn and grow.

Experiences

2024

React/Nextjs Developer Mid-Levvel

Makiti Group

April 2024 - Present (Partial Time)

I work on many projects like:

- An application for purchasing a travel ticket online
- A Payment service

My tasks:

- Responsible for the creation of UI of different projects and API integration provided by the Backend team
- Writing of end-2-end tests with Cypress
- Mockup creation with Figma

Tools used: React, React Native, TailwindCSS, axios

React/React Native Developer (Freelance)

Gloovee

March 2024 - May 2024 (Partial Time)

I acted as a web and mobile developer on an event creation application.

My tasks:

- Integration of Backend APIs into the existing web and mobile application
- Addition of missing interfaces on the web and mobile interface

Tools used: React, React Native, TailwindCSS, axios

React Developer

Valide

April 2023 – April 2024 (Partial Time)

I acted as a React developer, working on the dashboard of the Valide application, whose goal was to provide students with direct access to past exam papers at the University of Yaoundé I.

My tasks:

- Integration of the dashboard UI interfaces
- Integration of the backend provided by Firebase to fetch and display data

Tools used: React, Firebase

2023

React Developer

Acesy

August 2023 – October 2023 (Partial Time)

I acted as a React developer, working on a platform aimed at digitizing the services offered by the City Halls of Yaoundé.

My tasks:

- Integration of the application's UI interfaces
- Managing code reviews performed by other developers

Tools used: React

2022

React Developer

Colorfol

June 2022 – July 2022

I acted as a React developer, working on the web interface of the Colorfol application, dedicated to streaming African music.

My tasks:

- Integration of the application's UI interfaces
- Integration of the backend API within the frontend application

Tools used: React, axios

Projects Realised

Rasengan.js – React Framework

Rasengan.js is a React framework that provides the ability to create high-performance, high-quality applications.

Link: <https://rasengan.dev>

Tools used: React, Vite, React Router, Nodejs

Rasengan UI – Collection of React components UI

Rasengan UI is a collection of more than 100 React UI components that allows you to quickly build web applications.

Link: <https://ui.rasengan.dev>

Tools used: Rasengan.js
